ERRATA
(i) Lithological boundaries and faults within one mile south of Mt Ellis are incorrect. For correction see figure 17.
(ii) In the cross-section and proceeding into the ultramafic mass from the west, the second fault is incorrectly shown as a fault to the east. The corrected cross-section is shown in figure 21.
(iii) Strike and dip symbols within the ultramafic body refer either to single or late layering. See page 113.
